

Cyber Crime Comes To Main Street

Are cyber criminals hiding in your small business or government agency?

Nearly half of small businesses have been victims of cyber attacks¹, and 60% of those hit close their doors within 6 months.²

Scroll over the hotspots in town to see how cyber crime hits the little guys (only works with Adobe Acrobat).

Cyber crime doesn't have to be big to be destructive. Let WatchGuard protect your small-town business with big-time security.
